PREMIUM PASSPORT

FIREFLY

CISCO TECHNOLOGIES

FIREFLY

Thank you for taking time to learn about our new Premium Cisco Passport Collection.

Back when we first designed the Cisco Passport Program, we set out to accomplish two things for our customers: to make choosing Cisco training simple and make attending Cisco training easy.

Since then, thousands of Cisco Engineers have been able to access their Cisco training through our simplified approach. Thank you to those engineers for making the program an outstanding success.
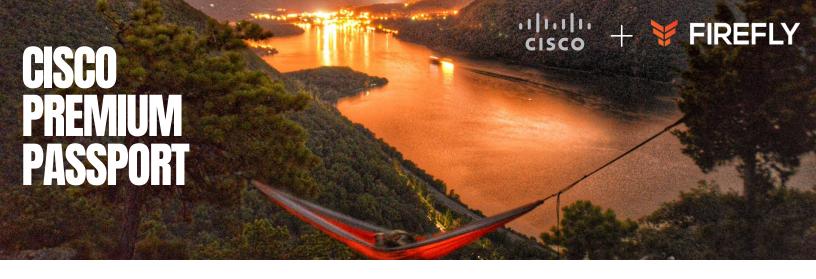

Over the past 4 years, we have been able to collect important data to help us make the program even more effective for our Cisco Engineering customers. We learned that 82% of engineers that purchased multiple Cisco Passports did so because they required 1-2 targeted classes from each Firefly Passport. We have used this data to create a passport combining the 20 most popular classes from the individual technology passports, with access to an additional 28 supplemental training courses on request.

We hope that you will find this intentionally curated collection of training highly effective for your Cisco Training requirements and, of course, it remains true to our initial goal: pay once and attend when you like and as often as you like.

If you are a returning customer, thank you for entrusting us with your personal development, we take it very seriously. If this is your first time, we think you're going to love it. That's what our existing customers tell us, and we are committed to making sure you have the same experience.

Yours truly,

Andrew Usherwood
CEO

CISCO PREMIUM PASSPORT

CISCO + FIREFLY

The Premium Passport solution provides the role-specific training required to operate a fully-functional Cisco Data Center, Security, Enterprise Network, DevNet, or Collaboration. All live courses are guaranteed to run and are taught by world-class instructors/engineers who blend formal learning and real-world business scenarios to ensure you hit the ground running.

VENDOR ACCREDITED

Our World Class courses are all vendor accredited and support the best attributes of each field of work.

LIVE/ON DEMAND CONTENT

Virtual application of core concepts ensures staff feels confident implementing what they learn.

GUARANTEED TO RUN

Plan your training around the deployment of technology or corporate events and project plans.

WORLD CLASS INSTRUCTORS

Firefly has delivered 7,000+ training events specifically designed to accelerate the adoption of technology by technical communities, globally and in over 16 local languages.

DIGITAL CONTENT

Firefly instructors bring expertise in both the technologies they teach and real-world business scenarios to ensure a highly relevant and credible learning experience.

FIREFLY LEARNING PLATFORM

Collaborate or interact with instructors and other like-minded professionals and access the library of expert articles and videos.

HERE IS WHAT'S INCLUDED

LIVE CLASSES   SUPPLEMENTAL TRAINING   DIGITAL LEARNING CONTENT

LIVE CLASSES

Implementing and Administering Cisco Solutions
| CCNA |

Implementing Cisco Application Centric Infrastructure
| DCACI |

Implementing Cisco Data Center Core Technologies
| DCCOR |

Implementing Cisco Hyperflex
| DCIHX |

Cisco Unified Computing System Core
| UCS-CORE |

Understanding Cisco Cybersecurity Operations Fundamentals
| CBROPS |

Implementing and Configuring Cisco Identity Services Engine
| SISE |

Implementing and Operating Cisco Security Core Technologies
| SCOR |

Securing Networks with Firepower Next Generation Firewall
| SSNGFW |

Implementing and Operating Cisco Enterprise Network Core Technologies
| ENCOR |

Leveraging Cisco Intent-Based Networking DNA Assurance
| DNAAS |

Transforming to a Cisco Intent-Based Network
| IBNTRN |

Implementing Cisco Enterprise Advanced Routing and Services
| ENARSI |

Implementing Cisco SD-WAN Solutions
| ENSDWI |

Developing Applications and Automating Workflows Using Cisco Core Platforms
| DEVASC |

Developing Applications Using Cisco Core Platforms and APIs
| DEVCOR |

Core Implementing DEVOPS Solutions and Practices Using Cisco Platforms
| DEVOPS |

Implementing and Operating Cisco Collaboration Core Technologies
| CLCOR |

Implementing Cisco Advanced Call Control and Mobility Services
| CLACCM |

Understanding Cisco Collaboration Foundations
| CLFNDU |

SUPPLEMENTAL TRAINING COURSES

- DCAUI
- DCCUCS
- DCFNDU
- DCID
- DCINX
- DCINX9K
- DCIT

- ENAUI
- ENC9K
- DNSLD
- ENWLSD
- ENWLSI
- DCITET
- DCIUCS

- SAUI
- SESA
- SNUMB
- SSFAMP
- SSFIPS
- SVPN
- SWSA

- WLFNDU
- CBROPS
- CLACCM
- CLCEI
- CLFNDU
- DEVOPS
- QOS

- AZ-900
- M20744
- M20764
- MD-100
- MD-101

DIGITAL LEARNING CONTENT

FIREFLY

PASSPORT

OBJECTIVES

Build your skills for a full year - Passports provide a simple, cost effective way to give you 12-months access to Live Cisco Certified Training & supplemental digital on-demand classes.

BENEFITS

Live online training delivered by experts
Official Cisco classes that prepare you for Cisco certification courses
A calendar of events that you can attend throughout the year
A library of on-demand content and recordings of courses taken

OUTCOME

The most competitive way to get 12-months access to all the courses needed to gain certification or on the job skills.

7,400+ Focused learning courses across 750+ Technology Titles, including Microsoft, CompTIA, AWS and more

5,000+ Courses in IT and Cloud Engineers

2,300+ Courses for Developers

125+ IT Governance and Project Management Courses

150+ Real Hands-On Labs

Online Certification-Grade Practice Exams for 70+ Certification Tracks

Expert Mentoring

LIVE Online Developer Bootcamps

Live Support

12 Months of Unlimited 24/7 Access
